with the support of:

Convention on  
Biological Diversity

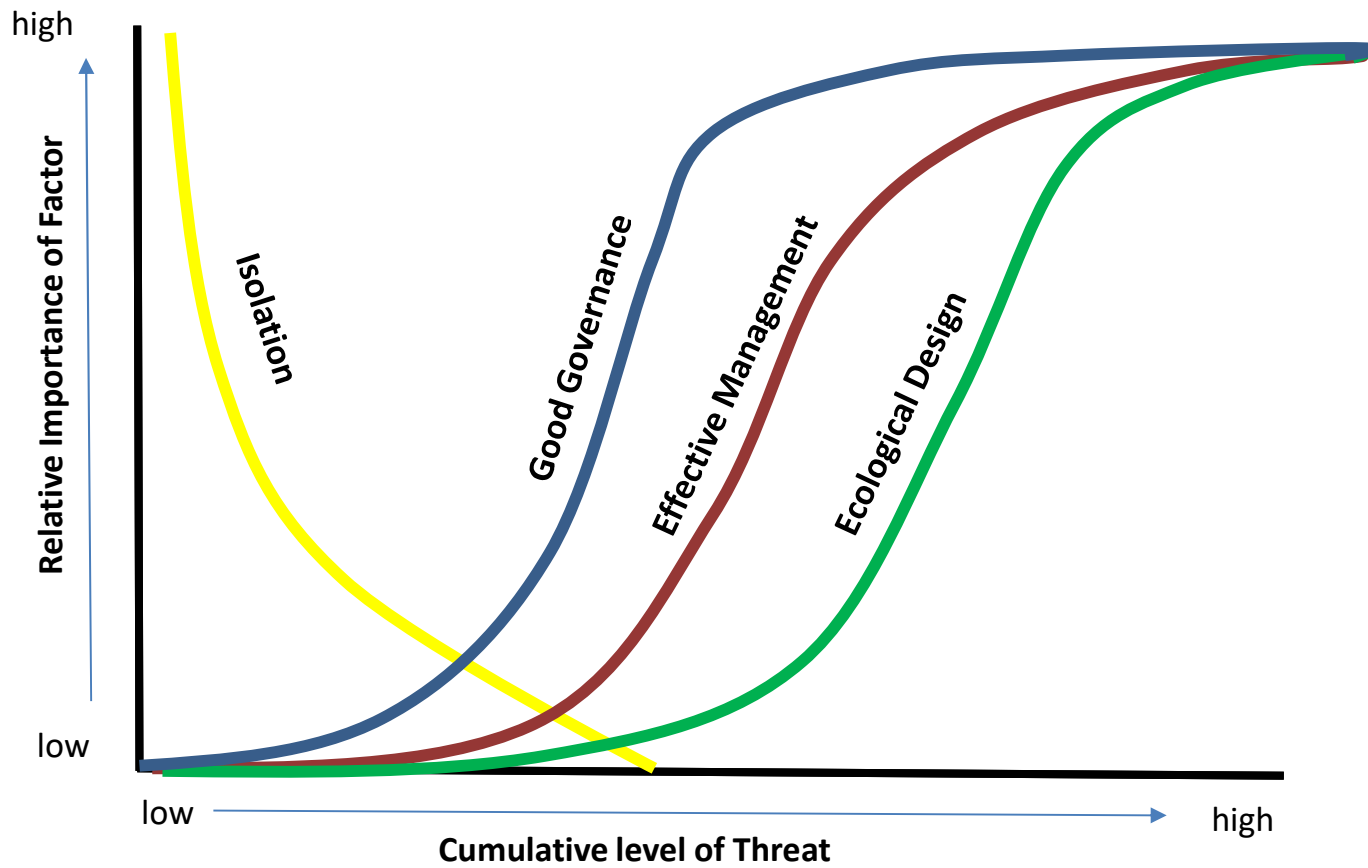

# Aichi Target 11

10 per cent of coastal and marine areas, especially areas of particular importance for biodiversity and ecosystem services, are conserved through effectively and equitably managed, ecologically representative and well-connected systems of protected areas **and other effective area-based conservation measures**, and integrated into the wider landscapes and seascapes

# Factors Determining Positive Ecological Outcomes in Protected Areas

# Zero Draft Post 2020 Global Biodiversity Framework

Target 2: Protect sites of particular importance for biodiversity through **protected areas and other effective area-based conservation measures**, by 2030 covering at least [60%] of such sites and at least [30%] of land and sea areas with at least [10%] under strict protection.
